

## March 2008

\*Enjoy taking the time to discuss this month's activities with your child and have fun....

### Conversation Starters -

\*Ask your child to show you what a straddle is....

\*Have your child show their "peanut butter and jelly feet".

**Tissue Toes** - Each child gets a tissue that they can only touch with their feet. They pick up their tissue with just their toes.... Great for coordination, dexterity and foot strength. The kids love it!

**Tap Steps**- Students are given an explanation of tap dancing. They then learn to "shuffle step" and learn other tap terminology. We will be adding these steps to our recital dances.

**The River**- We take out our magical river and leap, hop and jump over it, trying not to get wet.

### **The Big Event For Little Kids**

\*\*\*We will be performing on Saturday April 12<sup>th</sup>, 2008.

Attached is the rest of the information for this event. \*\*\*

Remember; please contact us with any questions or comments....
